MAKES YOU THINK

Pilgrim Myth - We generally think of the Pilgrims wearing only black-and-white clothing and buckles on their hats, clothes and shoes. In truth, buckles didn't come into fashion until later in the 17th century, and pilgrims usually wore black-and-white clothes only on Sunday. Women generally dressed in red, green, brown, violet, blue or gray, and the men wore white, beige, black, green and brown.

QUOTE OF THE QUARTER

"Penicillin cures, but wine makes people happy." - Alexander Fleming (1881-1955), the Scottish bacteriologist credited with discovering Penicillin in 1928.
