2011 GRAZIOSO ORGANIC TORRONTES

PRODUCED BY: VINECOL SA – ORGANIC VINEYARDS, MENDOZA, ARGENTINA

PALATE – A light, crisp white wine with a medium body and an elegant finish. This tasty wine showcases flavors of lychee, kiwi, lemon and peach!

VARIETAL / BLEND
100% Torrontes

BOUQUET – Bright young floral aromas combine with tropical stone fruits and a note of herbs / fresh sage.

NEW BOTTLE – VinEcol SA is proud to utilize a light, eco-friendly grade of glass in preparation of this wine that shows off the bright golden Torrontes color. Each case of 12 glass bottles weighs 2 less pounds than previous

vintages, reducing our carbon footprint!

WINE DETAILS - Winemaker – Hugo Zamora, BIO – Organic NOP Certified, www.vinecol.com.ar, 13.5% Alc. By Vol., 3.10 pH, 1.99 g/L Res. Sugar, 6000 Bottles / 500 Cases Produced, Synthetic Cork

FOOD PAIRINGS – Pair with chicken, salmon, light salads, or as an apéritif.

CELLARING POTENTIAL – Created to be consumed fresh and young, this wine from the 2011 vintage is ready to drink chilled today!

WINE NOTES & AGING - 100% organically grown in Mendoza, Argentina - GraziOSO literally is defined as a musical term by which you play the entire movement in a light, flowing, graceful style. For the third vintage of GraziOSO, we continued our trend in having the wine made 100% from Torrontes to show off the big floral aromas and fresh, yet complex tones typical to the pride of Argentina’s white wine fame. 100% organically grown grapes with no pesticides or herbicides used in the processing. The grapes undergo cold fermentation in stainless steel to ensure a strong acid structure.

REGIONAL DETAILS – Mendoza, Argentina is the home of South America’s most recognized wine region and Torrontes is the “Queen Grape” of Argentina with more hectares under production than any other single white grape varietal. This wine captures the essence of the warm days and cool nights in the Central Mendoza region where Bodegas VinEcol is

committed to organic viticulture that utilizes science and advanced farming techniques for optimally ripe grapes.
